Vent System Approval & Requirements

This fireplace is manufactured to accept 6 5/8" x 4" direct vent chimney for horizontal and vertical terminations. Refer to the installation manual for specifications.

IMPORTANT: A wall thimble/pass thru must be used on ALL horizontal vent runs that pass through interior OR exterior walls. (follow vent manufactures instructions)

Elbows: For each additional 90º elbow used after the first elbow, 3' must be subtracted from the maximum venting allowed. For each additional 45º elbow used after the first elbow, 1½' must be subtracted from the maximum venting allowed. Note: (2) 45º elbows = (1) 90º elbow.

Horizontal Terminations
Minimum: 90º + 6" + cap
Maximum: See Manual

Vertical Terminations
Minimum: 3' + vent cap
Maximum: 50' + vent cap

THE SP SERIES

The **SP Series** offers a slim-profile design & value that is the best in its class. Available in either an IPI version or a Millivolt system, the **SP** offers a large viewing area, realistic logs, and efficiency that makes it the perfect fireplace for any room in your home.
